FOUNDED 1856

NURSERY PRODUCTS

WE believe it to be an advantage to our customers that we can offer them a large stock to select from. Not only do we offer an extremely large variety of plants, but an unusually large range of sizes in each variety.

To appreciate the time you will save by purchasing our matured trees, you must bear in mind that a tree two inches in diameter is ten years old, and that every inch above two inches in diameter represents three additional years of growth; thus, a five-inch tree is nineteen years old.

SHIPPING. Prices are for plants dug at the nursery. We deliver free of charge at the C. M. & St. P. Ry. station, Glenview. Packing charged at cost. Carload lots packed free. We can also deliver by motor truck within reasonable distance, charging merely the cost of same.

GUARANTEED ORDERS. Where desired, we undertake to plant and guarantee all trees and shrubs supplied by us at our "Furnish, Plant, and Warrant" prices.

REPLACING. Any of our nursery products which fail to live will be cheerfully replaced at half of the current "each" price, provided they have been properly planted and cared for, and

notice in writing is given us before July 15 following date of shipment.

CLAIMS. Claims for shortages or for plants damaged in transit, must be made promptly on receipt of goods. We guarantee safe arrival of nursery stock in good condition.

PAYMENT. All accounts are due when bills are rendered, and payment is expected by the 1st of the following month.

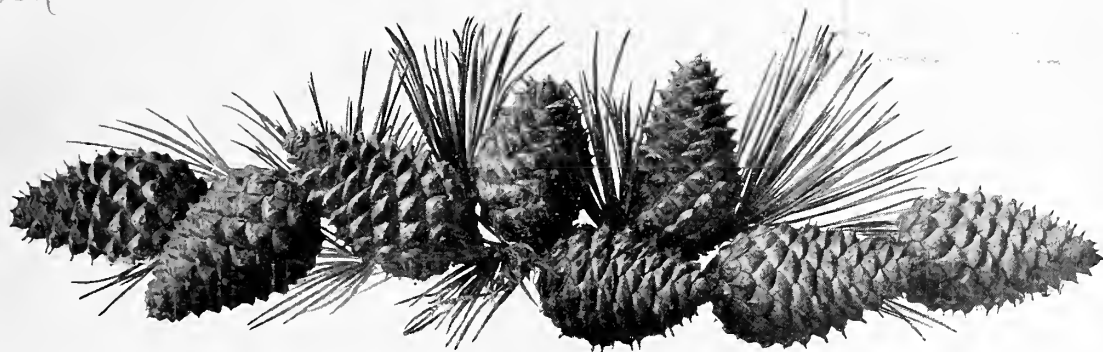

VISITORS to our nursery are welcome at all times, but they should notify our General Office, 940 Marquette Building, Chicago, Phone Central 2770 and 2771 and arrangements will be made to have them met at Glenview Station and the usual courtesies extended.

LANDSCAPE SERVICE

Patrons contemplating the carrying out of planting schemes, whether on a large or a small scale, will find in our organization landscape gardeners capable of advising them and supervising the execution of their plans in a thoroughly successful manner.

In order to give an opportunity for new friends to become acquainted with our organization, and to judge for themselves of our ability to serve them, we offer to send one of our trained men to look over and advise on planting problems, a charge being made only for his traveling expenses from Chicago and return.

62.23

EVERGREENS

All our evergreens are shipped with a ball of earth, and may be safely planted practically any time of the year, except July.

Abies · Fir

Abies concolor. Silver Fir. One of the hardiest and handsomest of our native Firs, growing to immense size, with wide-spreading branches below. The foliage is bluish green, longer than that of most of the other small-leaved evergreens. It is particularly suitable for planting in the Middle West.

Each	10	
2 ft.	\$3 75	\$33 75
2 ½ ft.	4 85	45 00
3 ft.	6 00	56 00
3 ½ ft.	9 00	83 00

PICEA, continued

P. pungens Kosteri. Koster's Blue Spruce. The most ornamental of all the Spruces. Its distinguishing feature is the remarkably colored foliage which imparts to the tree a pronounced blue appearance. It is absolutely hardy in the coldest regions, and grows to perfection in this section of the country. Our stock is guaranteed true to name, its color is unrivaled, and all our trees are grafted from true Koster trees.

Pinus · Pine

Pinus nigra (P. austriaca). Austrian Pine. A tall, dense tree of rapid growth, with a broad, round crown. It is one of the most formal of the family, and has a wonderful air of strength and vigor about it, imparting a dignity to the grounds not possible with smaller trees. It is perfectly hardy everywhere and is particularly adapted to this section. Its quick growth recommends it for planting for immediate effect.

	Each	10
2 ft.	\$2 75	\$26 00
3 ft.	4 50	41 00
4 ft.	7 50	71 00
5 ft.	11 25	105 00
6 ft.	15 00	135 00
7 ft.	18 75	172 50
8 ft.	22 50	202 50
9 ft.	26 25	240 00

P. Cembra. Swiss Stone Pine. A magnificent, majestic Pine, with a broad open top. When old it is one of the most picturesque of the Pines, and when young is most beautiful and graceful. Hardy everywhere.

	Each	10		Each	10
2 ft.	\$3 75	\$33 50	2½ ft.	\$4 15	\$37 50

P. Banksiana. Jack Pine. Of rather shrubby nature. The pairs of bright green needles are somewhat twisted, and the pale shiny cones are persistent for two to three years. Very hardy.

	Each	10		Each	10
4 ft.	\$6 00		8 ft.	\$15 00	
6 ft.	10 50		10 ft.	20 00	

P. montana Mughus. Dwarf Mountain Pine. A low stocky Pine, of spreading habit, with short, stout, bright green, needle-like leaves arranged in whorls around a stiff branchlet. The branches are nearly upright in growth and form a compact head. It can be used with good effect in places where there is not room for higher-growing trees. Our large sizes of this remarkable Pine have been cultivated with the greatest care, and are particularly good for producing an immediate effect.

	Each	10		Each	10
1 ft.	\$2 25	\$20 00	2½ ft.	\$6 75	\$60 00
1½ ft.	3 00	26 00	3 ft.	9 00	82 50
2 ft.	4 50	41 00	4 ft.	13 50	120 00

P. ponderosa. Bull Pine. The typical Pine tree of the West, growing to a large size, with stout and spreading, somewhat pendulous branches. Of quick growth and valuable for picturesque effect.

	Each	10		Each	10
4 ft.	\$7 50	\$71 00	7 ft.	\$18 75	
5 ft.	11 25	105 00	8 ft.	22 50	
6 ft.	15 00	135 00			

Pinus nigra (austriaca)

Pinus rigida. Pitch Pine. Dark green foliage, generally in threes. Thrives on very poor or dry soil. Perfectly hardy, grows rapidly; a symmetrical tree with black bark.

	Each	10		Each	10
5 ft.	\$11 25	\$101 50	8 ft.	\$22 50	\$202 50
6 ft.	15 00	135 00	9 ft.	26 50	236 00

P. Strobus. White Pine. Grows to a towering height, slightly pointed crown which eventually becomes broad and open. Leaves bluish green, borne in clusters.

	Each	10		Each	10
3 ft.	\$2 25	\$18 50	6 ft.	\$8 25	\$75 00
4 ft.	3 75	33 50	8 ft.	14 25	127 50
5 ft.	6 00	52 50			

P. sylvestris. Scotch Pine. A large, handsome tree, somewhat pyramidal in form; spreading branches which droop slightly at the tips; vigorous grower.

	Each	10		Each	10
2 ft.	\$2 25	\$20 00	6 ft.	\$10 50	\$93 50
3 ft.	3 75	33 50	8 ft.	15 00	135 00
4 ft.	6 00	52 50	10 ft.	19 50	176 00
5 ft.	8 25	71 00	12 ft.	24 00	217 50

Pseudotsuga

Pseudotsuga Douglasii. Douglas' Spruce. A strong, splendid, towering tree. It grows in pyramidal shape, with bluish green needles, and its branches droop slightly at the tips, giving it a soft outline. It is one of the finest evergreens for producing quick effects.

	Each	10		Each	10
2 ft.	\$2 75	\$26 00	6 ft.	\$15 00	\$135 00
3 ft.	4 50	41 00	8 ft.	22 50	202 50

Thuja occidentalis pyramidalis

Taxus · Yew

Taxus cuspidata nana (*T. cuspidata brevifolia*). Japan Yew. A handsome small tree from Japan, which in this country partakes more of the nature of an evergreen shrub. A distinguishing feature of it lies in the bright red, berry-like fruit it bears in late summer. Absolutely hardy and well adapted to this region.

Each	10	Each	10
1 ½ ft.	\$3 75 \$33 50	2 ½ ft.	\$6 75 \$63 50
2 ft.	5 25 48 50	3 ft.	8 25 78 80

Thuja · Arborvitæ

Thuja occidentalis. American Arborvitæ. A small tree of close, vigorous growth, with peculiar, flat foliage; thoroughly hardy, thriving well in this section of the country. Holds its color well in winter, and is one of the best of the Arborvitæ for producing immediate effect.

Each	10	Each	10
2 ft.	\$1 50 \$11 00	6 ft.	\$8 25 \$75 00
2 ½ ft.	1 85 15 00	7 ft.	10 50 93 50

5 ft.	6 00 52 50	12 ft.	23 25

T. occidentalis Columbia. Silver-tipped Arborvitæ. An exceedingly attractive form. The foliage is broad and attractively marked with splashes of silver-gray. Our stock is particularly fine and thrifty, and can be used with marked success in creating quick effects in landscape plantings.

Each	10	Each	10
3 ft.	\$4 50 \$41 00	6 ft.	\$15 00 \$135 00
4 ft.	7 50 71 00	8 ft.	22 50 202 50
5 ft.	11 25 101 00		

Thuja occidentalis globosa. Globe Arborvitæ. Ball-shape, with the branches and typical Arborvitæ foliage very compact. Thoroughly hardy, and will stand shearing to preserve shape without injury.

Each	10	Each	10
1 ½ ft. spr.	\$3 75 \$33 50	2 ft. spr.	\$5 25 \$45 00

T. occidentalis Hoveyi. Hovey's Arborvitæ. A low-growing form, dense and compact in growth, and forming a somewhat round head, clothed with bright green foliage. It is peculiarly adapted to this section.

Each	10	Each	10
1 ½ ft.	\$2 60 \$22 50	2 ft.	\$3 35 \$30 00

T. occidentalis lutea. Peabody's Golden Arborvitæ. A bright golden yellow form; dense habit, with short branches, growing in pyramidal shape. Of extraordinary constitution, and adds a pleasing touch of brightness to the rest. It retains its color through the winter.

Each	10	Each	10
5 ft.	\$11 25 \$105 00	8 ft.	\$22 50 \$222 50
6 ft.	15 00 135 00	10 ft.	30 00 270 00

T. occidentalis plicata. Fan-shaped Arborvitæ. A small, sturdy tree of dense growth, pyramidal in shape. The branches are shorter than the American variety, the foliage is darker green and fan-shaped. Extremely hardy and vigorous.

Each	10	Each	10
3 ft.	\$4 50 \$41 00	6 ft.	\$15 00 \$135 00
4 ft.	7 50 71 00	8 ft.	22 50 202 50
5 ft.	11 25 101 00		

T. occidentalis pyramidalis. Pyramidal Arborvitæ. A most valuable upright evergreen, of dense, compact habit. Foliage light green; columnar form similar to Irish juniper or erect yew.

Each	10	Each	10
3 ft.	\$3 75 \$33 80	4 ½ ft.	\$7 10 \$60 00

***A. dasycarpum* Wieri (*A. saccharinum* Wieri).** Cut-leaved Maple. Tree of medium height, with long, slender, pendulous branches. The foliage is light in texture, and most exquisitely cut and divided; bright, fresh, lively green, with a silvery under-surface.

Diam.	Each	10	Diam.	Each	10
1 1/2 in.	\$2 25	\$18 80	3 in.	\$5 25	\$45 00
2 in.	3 00	26 30	3 1/2 in.	7 50	67 50
2 1/2 in.	4 10	37 50			

A limited number of trees up to 10 inches diameter.

***A. platanoides*.** Norway Maple. One of the handsomest and most desirable of the Maples, growing to a good height, with spreading branches and a compact, round head. It is one of the best trees for creating quick effects. We call special attention to the magnificent lot of large trees we have cultivated for that purpose. These have been frequently transplanted and will grow and thrive wherever placed.

Ulmus · Elm

Ulmus americana. American Elm. The handsomest of our American lawn or street trees, growing to great size, with wide-spreading, graceful branches. We call special attention to our trees grown for immediate effects. These have all been cultivated by frequent transplanting, and with them it is possible to have fine, large trees in a remarkably short time.

Diam.	Each	10	Diam.	Each	10

Salix caprea (Pussy Willow). See p. 9

Berries of Berberis Thunbergii (Japanese Barberry)

DECIDUOUS SHRUBS

Adelia

Adelia acuminata. Grows about 8 feet in height; yellow flowers in early spring.

Each	10	Each	10
3 ft.....\$0 50	\$4 50	5 ft.....\$0 75	\$6 00

Amelanchier · Juneberry

Amelanchier canadensis (Botryapium). American Juneberry. A shrub growing 3 to 4 feet tall; fine for rockeries, and thrives with remarkable vigor.

Each	10	Each	10
2 ft.....\$0 35	\$3 00	4 ft.....\$0 60	\$5 00

A. vulgaris. European Juneberry. A dwarf shrub with long-petaled flowers borne in short clusters, and blue-black berries which are very palatable.

Each	10	Each	10
2 ft....\$0 35	\$3 00	3 ft.....\$0 50	\$4 50

Amygdalus · Flowering Almond

Amygdalus chinensis rosea. Pink Double-flowering Almond. An early-flowering shrub of medium height; sprays of pink flowers, resembling small roses, appear while the foliage is small.

Each	10	Each	10
2 ft.....\$0 60	\$5 00	3 ft.....\$1 10	\$9 00

Amygdalus chinensis alba. White Double-flowering Almond. Similar to the pink-flowering variety, except that its flowers are glistening white.

Each	10	Each	10
2 ft.....\$0 60	\$5 00	3 ft.....\$1 10	\$9 00

Aralia

Aralia pentaphylla (Acanthopanax pentaphyllum). Five-leaved Aralia. A medium-sized shrub, with arching branches, and large, shining foliage, producing a semi-tropical effect, which is its chief attraction. A strong and vigorous grower, valuable for creating an immediate effect.

Each	10	Each	10
3 ft.....\$0 75	\$6 50	4 ft.....\$1 05	\$9 00

Berberis · Barberry

Berberis Thunbergii. Japanese Barberry. A Japanese shrub of low growth. Small bright green foliage that, with the coming of frost, takes on hues of dazzling crimson, orange and scarlet. One of its greatest charms lies in its brilliant red berries which remain on the branches all winter. It is often used with great success as an untrimmed hedge, and for this purpose we have growing a magnificent lot of plants, frequently transplanted, which we can recommend as being the best of their kind.

Each	10
1 ½ ft.....\$0 35	\$3 00
2 ft.....	50 4 00
2 ½ ft.....	65 5 00
3 ft.....	90 7 50

Caragana

Caragana arborescens. Siberian Pea Tree. A shrub growing very tall. It bears a profusion of bright yellow, pea-shaped flowers in small clusters in the late spring. In habit of growth this shrub is something like the dogwoods, but not quite so tall. It is a native of Siberia, but grows well in the United States.

Each	10
3 ft.....\$0 45	\$3 50
4 ft.....	50 4 50

Amelanchier canadensis

Cephalanthus • Button Bush

Cephalanthus occidentalis. Button Bush. A sturdy shrub with erect branches, light green foliage, and odd-looking, ball-shaped clusters of flowers like a round button on long stems; distinctively ornamental at all times.

	Each	10		Each	10
2 ft.	\$0 35	\$3 00		3 ft.	\$0 50 \$4 50

CORCHORUS. See Kerria.

Cornus • Dogwood

Cornus alba sibirica. Scarlet-twigged Dogwood. A rather high-growing shrub, with bright coral-red branches. The brilliancy of its bark is most pronounced in winter and early spring, when it becomes the feature of the landscape.

	Each	10		Each	10
3 ft.	\$0 45	\$3 50			
4 ft.	50	4 50			
5 ft.	75	6 50			

C. mas. Cornelian Cherry. A large, dense shrub or small tree with fine, glossy foliage. The fruit is bright scarlet and very showy, clinging to the branches for a long time. If planted in front of the evergreens, the contrast is striking.

	Each	10		Each	10
1 ½ ft.	\$0 35	\$3 00			
2 ft.	45	3 50			
2 ½ ft.	60	5 00			
3 ft.	75	6 50			
4 ft.	1 05	9 00			

Elæagnus angustifolia
See page 14

Deutzia scabra

Cornus stolonifera flaviramea (*C. aurea*). Golden-barked Dogwood. A handsome shrub, growing to middle height with bright, shining golden yellow bark on its branches, which is its distinguishing characteristic.

	Each	10		Each	10
2 ft.	\$0 45	\$3 50		3 ft.	\$0 75 \$6 50
2 ½ ft.	60	5 00		4 ft.	1 05 9 00

Deutzia • Snowflower

Deutzia Lemoinei (*Lemoine's Hybrid*). A small graceful shrub, with slender, arching branches. Dainty white flowers are borne in graceful sprays.

	Each	10		Each	10
1 ½ ft.	\$0 35	\$3 00		2 ½ ft.	\$0 60 \$5 00
2 ft.	45	3 50		3 ft.	75 6 50

D. scabra. Pride of Rochester. A spreading shrub, growing to medium height. Handsome white flowers borne in broad clusters in early spring.

	Each	10		Each	10
2 ½ ft.	\$0 60	\$5 00		4 ft.	\$0 60 \$5 00
3 ft.	50	4 50			

D. scabra candidissima (*scabra Wellsii*). Double Snow-flower. A tall-growing variety. The pure white, double flowers are borne in handsome, upright clusters and are the largest and most showy of any of the Deutzias.

	Each	10		Each	10
2 ft.	\$0 45	\$3 50		3 ft.	\$0 75 \$6 50

Diervilla

Diervilla sessifolia. High Bush Honeysuckle. Of spreading habit and medium height; yellow flowers. Well adapted to northern latitudes.

	Each	10		Each	10
2 ft.	\$0 45	\$3 50		3 ft.	\$0 75 \$6 50
2 ½ ft.	60	5 00			

Foliage and seed pods of
Euonymus (see page 14)

Forsythia intermedia

Elæagnus · Oleaster

Elæagnus angustifolia. Russian Olive. The bright yellow flowers are very fragrant, and are followed by silvery fruits. Hardy and vigorous, withstanding the extreme temperature of the Central West. A splendid shrub for border or specimen.

Each	10	Each	10
2 ft.....\$0 35 \$3 00		4 ft.....\$0 60 \$5 00	
3 ft.....50 4 50			

Euonymus · Burning Bush

Euonymus alatus. Japanese Burning Bush. Also known as Winged Burning Bush. A shrub of medium height, with branches bearing odd, corky "wings." Its combination of corky branches, handsome foliage, and beautiful fruit make it of unusual value as an ornament to the lawn. The foliage is oval in form, rich green in summer, but changing to brilliant red and crimson in the fall.

Prices of Euonymus alatus

Forsythia · Golden Bell

Forsythia intermedia. Hybrid Golden Bell. Grows to medium height; slender arching branches weighted with golden yellow flowers in the early spring.

Each	10	Each	10
2 ft.....\$0 35 \$3 00		4 ft.....\$0 60 \$5 00	
2 1/2 ft....45 3 50		5 ft.....75 6 00	
3 ft.....50 4 50			

F. suspensa Fortunei. A shrub of medium height, with long, slender, pendent branches. The quaintly twisted, four-petaled flowers of bright golden yellow, cover the entire bush at the first breath of spring.

Each	10	Each	10
2 ft.....\$0 30 \$2 50		4 ft.....\$0 50 \$4 50	
2 1/2 ft....35 3 00		5 ft.....75 6 50	
3 ft.....45 3 50			

Hippophæ · Sea Buckthorn

Hippophæ rhamnoides. A hardy shrub of large size. The flowers, yellowish in color, are produced in clusters in early spring, followed by great ropes of bright orange-colored, showy berries.

Each	10	Each	10
2 ft.....\$0 35 \$3 00		4 ft.....\$0 60 \$5 00	
2 1/2 ft....45 3 50		5 ft.....75 6 00	
3 ft.....50 4 50			

Our landscape experts are ready on short notice to respond to calls from those who contemplate changing an old planting, or making a complete new plan for the home grounds.

Hydrangea paniculata grandiflora

*Hydrangea arborescens sterilis*

Hydrangea

***Hydrangea arborescens sterilis*.** Snowball Hydrangea. One of the latest additions to the hardy shrubs, and, in many respects, the best. It forms a magnificent bush of medium height; more compact in habit than the large-flowered variety. It has been found well adapted to the climate of this section.

Each	10	Each	10
1 ½ ft. \$0 45	\$3 50	2 ½ ft. \$0 90	\$7 50
2 ft.	60 5 00		

***H. paniculata grandiflora*.** Large-flowered Hydrangea. The flowers are borne in immense, pointed clusters, creamy white when fully expanded, and continuing in bloom for a month. Later the huge flower-heads change to tones of rose and bronze where exposed to the sun. The bush grows to medium height, and can be successfully trained to tree form.

Each	10	Each	10
2 ft. \$0 45	\$3 50	3 ft. \$0 75	\$6 50
2 ½ ft.	60 5 00		

Hypericum · St. John's Wort

***Hypericum aureum*.** St. John's Wort. An effective and beautiful shrub, growing to medium height. The flowers are shining golden yellow, and when in full bloom the bush appears as if it were studded with gold.

Each	10	Each	10
1 ½ ft. \$0 45	\$3 50	2 ½ ft. \$0 90	\$7 50
2 ft.	60 5 00		

Kerria · Globe Flower

Kerria japonica flore-pleno (*Corchorus japonicus nanus flore-pleno*). Double-flowered Japanese Globe Flower. A graceful shrub from Japan; remarkably strong and thrifty, valuable for producing immediate effect in the shrubbery border.

Each	10	Each	10
1 ½ ft. \$0 45	\$3 50	2 ft. \$0 60	\$5 00

Kerria japonica variegata (*C. japonicus variegatus*). Variegated Japanese Globe Flower. Foliage edged with white; in other respects similar to the type, except that it does not grow quite so high.

Each	10	Each	10
1 ½ ft. \$0 45	\$3 50	2 ft. \$0 60	\$5 00

Ligustrum · Privet

***Ligustrum amurense*.** Amoor Privet. A hardy and vigorous shrub, becoming tall if allowed to grow untrimmed. One of the hardiest shrubs and particularly good for northern planting. We have an extra-fine stock of this variety grown especially for hedges, with an abundance of strong, vigorous roots and stiff, sturdy branches. They will stand shearing to any desired height or shape.

Each	10	Each	10
2 ft. \$0 25	\$2 00	3 ft. \$0 35	\$3 00
2 ½ ft.	30 2 50	4 ft.	45 3 50

***L. Iibota Regelianum*.** Regel's Privet. A dwarf form of Privet, with spreading branches and larger foliage than the others.

Each	10	Each	10
2 ft. \$0 30	\$2 50	3 ft. \$0 45	\$3 50
2 ½ ft.	35 3 00		

Lonicera · Bush Honeysuckle

***Lonicera Morrowii*.** Morrow's Japanese Honeysuckle. A Japanese shrub of medium height, but of wide-spreading growth, with gracefully recurring branches; foliage lighter than that of the other varieties; flowers bluish-white, followed by bright red berries. Our stock will produce an immediate effect in the shrubbery border.

Each	10	Each	10
2 ft. \$0 25	\$2 00	3 ft. \$0 45	\$3 50
2 ½ ft.	30 2 50	4 ft.	50 4 50

***L. orientalis*.** Oriental Honeysuckle. One of the tallest; handsome foliage; flowers pale violet or of a pinkish hue, appearing in the late spring; berries black.

Each	10	Each	10
2 ft. \$0 25	\$2 00	4 ft. \$0 45	\$3 50
2 ½ ft.	30 2 50	5 ft.	50 4 50
3 ft.	35 3 00		

Hypericum

Lonicera tatarica

LONICERA, continued

L. Ruprechtiana. Manchurian Honeysuckle. A large shrub; small, pale blue-green foliage; white flowers in early May, completely cover the bush. Absolutely hardy and vigorous.

	Each	10		Each	10
3 ft.....	\$0 45	\$3 50		4 ft.....	\$0 50 \$4 50

L. tatarica. Tartarian Honeysuckle. The best-known of all the Bush Honeysuckles, growing to a good height, with upright or spreading branches and bright green foliage. The flowers, borne freely in the late spring, are white or pink, followed by bright orange or red berries.

	Each	10		Each	10
1 1/2 ft.....	\$0 20	\$1 50	4 ft.....	\$0 45	\$3 50
2 ft.....	25	2 00	5 ft.....	50	4 50
2 1/2 ft.....	30	2 50	6 ft.....	75	6 50
3 ft.....	35	3 00			

Lycium · Matrimony Vine

Lycium chinense. While generally listed as a vine, this is really a low-growing shrub, with long, slender, thorny branches; flowers light purple, followed by clusters of scarlet or coral-red berries.

Each	10	Each	10
2 ft.....\$0 25	\$2 00	3 ft.....\$0 35	\$3 00
2½ ft.... 30	2 50	4 ft..... 45	3 50

Morus · Mulberry

Morus alba tatarica. Russian Mulberry. When trained in shrub form the white Mulberry makes a handsome, interesting plant. An extra-strong and thrifty grower; it makes a most practical hedge plant by reason of its rapid and dense growth, and it stands shearing to any extent.

Each			10		
3 ft.....	\$0 35	\$3 00	5 ft.....	\$0 50	\$4 50
4 ft.....	45	3 50			

Philadelphus · Mock Orange

Philadelphus coronarius. Mock Orange. One of the old-time shrubs of upright growth. The flowers are creamy white, very fragrant, and borne in great abundance in late May and early June; it is extremely hardy and vigorous. Our stock is particularly valuable for immediate effect in landscape planting.

VINES

ACTINIDIA arguta. Silver Vine. A hardy and vigorous climber, with glossy and heart-shaped foliage; the flowers are white, with dark purple anthers.

Each 10
2-yr., 12 to 18 in. \$0 50 \$4 00

AKEBIA quinata Five-leaved Akebia. A climbing vine from Japan, with five-parted foliage; will climb 12 to 15 feet in a season. In late spring or early summer bears a multitude of cup-shaped, rosy purple flowers of fine fragrance, which are followed by dark purple fruits.

Each 10
2-yr., 12 to 18 in. \$0 35 \$3 00

AMPELOPSIS quinquefolia. Virginia Creeper. One of the best-known of our native vines, growing vigorously and soon covering large spaces.

Each 10
2-yr., 1 to 2 ft. \$0 25 \$2 00
3-yr., 2 to 3 ft. 35 3 00

A. quinquefolia Engelmannii. Engelmann's Virginia Creeper. A high-climbing vine, with compound foliage, which in the fall turns to brilliant scarlet.

Each 10
2-yr., 1 to 2 ft. \$0 35 \$3 00
3-yr., 2 to 3 ft. 45 3 50

A. tricuspidata Veitchii. Boston Ivy. Climbs without support, by means of tendrils, and will soon transform a blank wall into a mass of bright, lovely green. The foliage changes to the most brilliant shades of red in the fall.

Each 10
2-yr., 2 ft. \$0 35 \$3 00 | 3-yr., 3 ft. \$0 50 \$4 00

ARISTOLOCHIA Siph. Dutchman's Pipe. A curious, twining vine, which has large, heart-shaped leaves; the flowers are of a peculiar shape, yellowish green, and borne singly or in clusters of two or three. The vine will cover a porch or veranda in a very short time.

Each 10
2-yr., 1 1/2 to 2 ft. \$1 00 \$7 50

BIGNONIA radicans. Trumpet Vine. One of the handsomest climbing vines. The flowers are long and trumpet-shaped, in large, terminal clusters, orange-red inside, scarlet outside.

Each 10
3-yr. \$0 50 \$4 00 | 4-yr. \$0 75 \$6 00

CELASTRUS orbiculatus. Japanese Bittersweet. An extremely hardy vine, attaining a height of 20 to 30 feet in a season. The distinctive feature is its profusion of large, orange-colored berries, borne in great clusters; with the approach of cold weather these split open, revealing bright scarlet arils which surround the seed. The plant is thoroughly hardy and grows to perfection in all parts of the West.

Each 10
2-yr. \$0 35 \$3 00 | 5-yr. \$0 60 \$5 00
3-yr. 45 4 00

Celastrus scandens. Bittersweet. Each 10
2-yr. \$0 25 \$2 00 | 3-yr. \$0 35 \$3 00
5-yr. 50 4 00

CLEMATIS paniculata. Virgin's Bower. One of the finest plants ever brought from Japan. A mass of fragrant white flowers fairly cover the upper parts of the vine with a great sheet of bloom in late summer.

Each 10
2-yr. \$0 40 \$3 00 | 3-yr. \$0 60 \$5 00

LONICERA sempervirens. Scarlet Trumpet Honeysuckle. Will grow 10 to 15 feet in a season. The flowers are about 2 inches long, brilliant scarlet. A fine vine for porches, as it holds its foliage almost all winter.

Each 10
2-yr. \$0 35 \$3 00 | 3-yr. \$0 40 \$3 50

LYCIUM chinense. See Shrubs, page 16

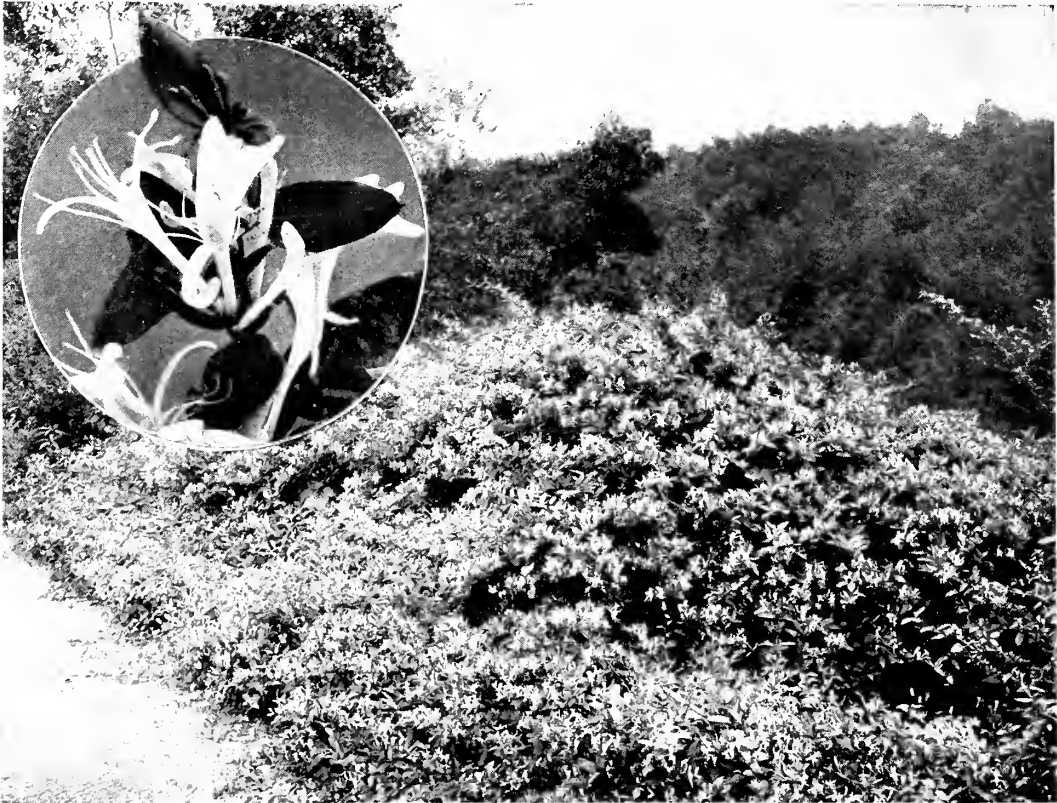

VITIS Labrusca. Fox Grape. A picturesque vine of strong, vigorous growth. The leaves are large, thick, and a rich green above, with a rough, felt-like down on the under side. Thoroughly hardy

Each 10
2-yr. \$0 50 \$4 00

WISTERIA sinensis. Chinese Wisteria. A free-flowering, hardy, ornamental vine. The flowers are borne in long, drooping clusters in spring, sometimes a foot or more in length. Our stock consists of fine, thrifty plants, sure to bloom the first year after planting.

Each 10
Lavender-blue or White 2 ft. \$1 00 \$7 50

*Clematis paniculata*

Lonicera japonica Halliana

EUONYMUS radicans. Climbing Euonymus. A native of Japan, usually grown as a trailing shrub, but will climb by means of aerial rootlets to 20 feet or more. It is very hardy, in fact, it is evergreen except in the extreme North.

Each	10	100
3-yr.	\$0 50	\$4 00 \$35 00
4-yr.	60	5 00 40 00
5-yr.	75	6 00 50 00

LONICERA japonica Halliana. Hall's Japan Honeysuckle. The very finest of all the Honeysuckles from Japan. Nearly an evergreen in its habit, dropping its foliage only when the new spring growth is starting.

Each	10
2-yr.	\$0 35 \$3 00
3-yr.	40 3 50

Phlox paniculata

PEONIES

THE QUEEN OF ALL
PERENNIALS

There never was an old-time garden which did not have the Peony as one of its chief attractions. This queen of garden flowers never fails to produce a wealth of blossoms, nearly all of which are fragrant, and in color varying from deepest crimson to pure white. It rivals the rose in brilliancy of color and perfection of bloom. The flowers of some of the sorts attain gigantic proportions, often measuring 7 to 8 inches in diameter, with stems $2\frac{1}{2}$ to 3 feet in length and sufficiently strong to support the blooms. Peonies should be planted in masses, with their colors separate, in order to get the best possible effect, but they lend themselves to any form of gardening and grow to perfection in ordinary garden soil.

Red Varieties

EARLY-FLOWERING

	Each	10
Modeste Guerin. (Guerin, 1845.) 1-yr. \$0 50 \$4 50
